EXPERIENCE

Brototype

Aug 2022 - Mar 2023

MERN STACK (Intern)

Trivandrum, Kerala

- At Brototype internship, self-taught various programming languages and technologies, showing adaptability.
- Weekly code reviews enhanced technical skills, fostering a deep understanding of MERN best practices and teamwork.

PROJECTS

Netflix-GPT | [GitHub Link](#) | [Web Link](#)

2024

- Developed a responsive Movie Streaming web app with React and Firebase, featuring user authentication for personalized experiences. Integrated TMDB API for real-time movie data and OpenAI API for search suggestions.
- Utilized Redux for state management and deployed globally via Firebase Hosting, showcasing proficiency in JavaScript, React, Firebase, Redux, and API integration.

Social Media | [GitHub Link](#) | [Web Link](#)

2023

- Architected scalable MERN app (MongoDB, React, Node.js), optimizing performance.
- Implemented user authentication and dynamic theming (light/dark mode), enhancing UX.
- Integrated social functionalities (post creation, liking, friend addition), fostering community interaction.

COZASTORE | [GitHub Link](#)

2023

- Developed an eCommerce website using Node.js, Express, and EJS for frontend rendering
- Implemented user and admin functionalities, including OTP authentication and Razorpay payment integration
- Enabled users to perform actions such as account creation, product browsing, and management of carts and wishlists

SKILLS

Programming Languages JavaScript, HTML5, CSS3

Front end React.js, Redux, HTML, CSS, Bootstrap, Tailwind-css

APIs-Integrated TMDB, OpenAI, Razorpay, Fast2sms

Deployment AWS, Netlify, Firebase, GitHub, Vercel

EDUCATION

SREE CHITRA THIRUNAL COLLEGE OF ENGINEERING | *B-Tech (Mechanical Automobile Engineering)*

2022

CERTIFICATION

2024 JavaScript Algorithms and Data Structures (Beta) by Free code camp. | [Link](#)

2023 Front-end development libraries by Free code camp. | [Link](#)
